CAMPBELL, SANTA CLARA CO., CAL., SEE OUR "TWO BIT COLUMN" FRIDAY, AUG. 13, 1909

Alaska Yukon Pacific Exposition

THE CALIFORNIA BUILDING AT A.-Y.-P. EXPOSITION, SEATTLE.

California's handsome building is one of the very striking structures on the grounds of the Alaska-Yukon-Pacific Exposition. It is in the old Spanish Mission type of architecture encountered so frequently in Southern California, and the detail of its front has attracted the attention of artists and architects from all over the country.

In the building every county of the golden state will have an exhibit. California, from Siskiyou to San Diego, has shown as much enthusiasm for the Exposition as has Washington itself.

WHERE WORLD'S WORKS OF ART WILL BE HOUSED AT A.-Y.-P. EXPOSITION, SEATTLE.

In this building will be exhibited many priceless paintings. The display will represent the art galleries of the world, for many of these pictures will be the work of the old masters, including rare art exhibits from the Corcoran in Washington, the Art Museum in New York, the Chicago Art Institute and from a large number of private galleries of wealthy men in the United States and Europe, who have for years made the collection of famous old paintings their hobby. Paris and London have made large loans.

At the Alaska-Yukon Pacific Exposition the selection of pictures will be limited to the works of men who have been recognized in the great art competitions in all parts of the world. Many American artists will be represented in the display in the Fine Arts Palace at the Exposition and arrangements have already been made for the shipping of these valuable paintings from art institues of this country to Seattle.

G. L. Berg, art director of the Exposition, has visited all of the leading galleries of the United States, collecting the pictures suitable for display at Seattle, and writes that the pictures already loaned will constitute one of the greatest art displays assembled for international exhibition.

The Fine Arts Building is a fireproof structure and was one of the first buildings completed on the Exposition Grounds. It cost more than $200,000 to erect the building.

PITTER'S TAGS

Have you any Apricots or Peaches?

FRUIT MEN NOTICE

Are you going to have any pitters working for you this year? Then you must keep track of their work. Do you make your own tags? Why do you do so? You can obtain them from us very reasonable.

Campbell Loses Through Umpire

Home Team Shows Superiority Over Fan Team in San Jose

COUNTY AMATEUR LEAGUE

Sunday's Results

Fans 7, Campbell 3, (10 innings)
San Jose Bakers 9, Mayfield 1, (Protested)
J. S. Williams 7, Raniers 2
Palo Alto 7, Brassy & Company 0
Meridian 4, Carmen 1

Standing of Clubs

	Won	Lost	Pct.
San Jose Bakers	2	0	1000
J. S. Williams	2	0	1000
Meridian	2	0	1000
Campbell	1	1	.500
Brassy & Company	1	1	.500
Palo Alto	1	1	.500
Mayfield	1	1	.500
Fans	1	1	.500
Carmen	1	1	.500
Raniers	0	1	.000

Last Sunday our local ball tossers played the crack Fan team of San Jose at Luna Park and had the game cinched until the umpire threw the Campbell boys down by making a raw decision in the tenth inning, which cost our boys the game. Another bad decision was made when De Selle tried to make a home run on a single. De Selle started for home and when he saw he was too late, tried to slide, but our old reliable backstop, Sawyer, taged him within four feet of the plate. To the surprise of all who saw the play he was called safe.

The Fan team is considered the fastest team in the League, but Campbell played rings around them and would have won the game, had they been given a fair deal.

The features of the game were the base-running of Mckenzie and the playing of Baumgartner at third who stopped several very difficult high-fliers. Eddlemon, Peacock and Walters also played great ball, and our pitcher Jeff Stockton, delivered the goods. Gerow and Bibbs had it easy in the field but did good work at the bat.

After this our boys will not be caught napping but will have their own Umpire if the official umpire cannot be there. They will play fast J. S. Williams team at the D. and M. grounds on South First st. next Sunday. A large number of fans from Campbell turned out last Sunday to see the game and a large crowd is expected to follow the game next Sunday.

Local Items of Interest

Happenings of Interest of Campbell and the Neighborhood

Mrs. Ben Campbell left for Capitola Monday.

Miss Cora Rodeck returned from Montery Wednesday a. m.

Mrs. Bellinger, of San Jose, visited Dr. and Mrs. Miner Wednesday.

John Duncan spent Wednesday in San Francisco and vicinity on business.

The W. C. T. U. will meet with Mrs. Marshman on Wednesday, August 18th. at 2:30 p. m.

Mrs. J. H. Brown, of Chicago, twin sister of Mrs. R. E. Dunphy, is spending the month with her.

F. O. Putnam's bungalow on the corner of Sunnyside and Los Gatos avs. is nearing completion.

Mr. and Mrs. J. W. Hook and children from Castroville, visited Mr. and Mrs. W. C. McCaughey last Sunday.

Mr. and Mrs. Dickenson and daughter of Seward, Neb. were visiting R. E. Dunphy and family the past week.

We received some notes of the W. C. T. U. meeting which was held over a week ago, too late for publication this week.

Mrs. Minnie Lewis, who has been spending a short time in San Francisco visiting friends, returned to Campbell Tuesday.

The "whirl-a-gig" is attracting lots of people, who get rid of everything, trouble, money, and dinner, when they ride on it.

Ben L. McCaughey returned to Santa Maria Saturday night after having spent the week with his parents Mr. and Mrs. W. C. McCaughey.

B. O. Curry left for Oakland Thursday to attend the Convention of the California State Realty Federation. He will be gone for two or three days.

The Campbell Drug Store has quite a unique display for a corn cure in the window. The idea is from the fertile brain of Miss Hattie Clark.

Berk Kirk on the Dry Creek Road, fell and cut his eye so bad that he had to be removed to the Sanitarium in San Jose, where he had several stiches taken in it.

Dr. Hartman, our local tooth excavator was called back to Campbell from his vacation trip to Santa Cruz, by some suffering mortal, Tuesday. He returned to Santa Cruz, Wednesday night.

While Mrs. White was standing on a chair Monday afternooh, she slipped and fell to the floor, landing on her hip. Although she suffered a bruise and from the shock, no material damage was done.

W. B. Howard, Assistant Superintendent of Public Schools of San Francisco, and his brother, E. E. Howard, are visiting their cousin, Mrs. M. J. Wilson and other relatives of this vicinity.

Mrs. Ralph Hess, of Visala, Cal., who has been spending some time with her aunt, Mrs. L. F. Shaw, on Johnson av. left for Santa Cruz Thursday morning. She is expected to return for a further visit with her relatives here soon.

Mrs. Alice E. Chapin of San Jose, has leased the house belonging to Chas. W. Gilman on Second street and will now be a permenent citizen of Campbell. She will move her household effects here Saturday.

Niss Ida Hesser, of Fairfield, who was chorister and organist during Mr. Kellogg's pastorate in that place, made a very plesant call at the parsonage one day this week. Miss Hesser is a popular and busy music teacher and is spending her vacation in the mountains above Los Gatos.

A delegation of Odd Fellows from the local lodge went to Los Gatos Thursday night to attend a meeting of the Rigley Lodge of that place, and to hear the Honorable Grand Master Johnson of the Grand Lodge of California speak. While there they also exemplified the Third Degree and all had a very fine time.

Oddity of Dreams.

"Nobody ever feels pain in a dream," said a psychologist. "Rage, terror, joy, grief—these emotions stab us as poignantly in dream as in reality. But physical pain, no. I have interrogated 2,000 persons, and none of them ever suffered dream pains. Yet they have dreamed of dreadful motor accidents, tortures, death. One young girl, indeed, dreamed time and again of being eaten alive by cannibals, yet even in that horrible nightmare she felt no pain."

It Had a Charm.

"I do miss Mrs. Jones. She told me all the news of the parish."

"Oh, that was only gossip—no truth in it."

"Well, there, I liked to 'ear it. Truth or lies, 'twas all news to me."—Punch.

A CONFIDING CONSTABLE.

The Way He Helped the Housemaid Repel the Burglars.

A good story is told at the expense of a constable in rural England, says a writer in the London Telegraph.

Not long ago a young and pretty housemaid arrived at the big house of the neighborhood, and it was observed that our friend's beat often took him in that direction. At first she seemed to resent his advances, but suddenly she changed altogether, and the course of true love appeared to run smooth—for a time.

One night he called rather later than usual. It was dark, and his fair one greeted him somewhat coolly, he thought.

His doubts, however, disappeared when she suddenly declared that she would take him into her confidence. She had overheard the particulars of a plot to break into the house and steal the plate.

"Now, Jim," she said, "here's a chance for promotion. The burglars knew where the plate was kept, so we've shifted it. What I want you to do is to get into the plate cupboard and wait till they come and open the door. Then you'll have 'em."

Jim jumped at the chance and half an hour later was concealed in the cupboard. The burglars came, as expected, and promptly got to work.

The constable chuckled to himself as he heard the muffled whir of a tool on the outside of the cupboard door, and he grasped his staff and waited.

After some minutes' waiting he resolved to take a cautious peep. But the door was fast, securely screwed on the outside by the burglars.

When Jim eventually roused the house and was released from his prison on the burglars and plate, together with the pretty housemaid (a confederate), had disappeared. Moreover, the constable's position took a good deal of explaining away.

We note with gladness that the Irrigation Congress has taken up the question of Conservation of Natural Resources. We hope they accomplish something.

Friday, the Thirteenth

Publication day on such an unlucky date of course is where we shine. Below is some of the bad luck that came to us. The rest we swept into the dust pan.

Campbell - - - California

NEWS OF WEEK FROM ALL THE COAST STATES

Occurrences Along the Pacific Slope Presented in Compendious Array.

Passing Events Among Your Neighbors Briefly Told in Short, Newsy Paragraphs.

San Diego.—San Diego county voted $1,250,000 in bonds for the purpose of constructing 448 miles of highways.

Stanford University. — Interesting figures on the probable entering class next month are now available here and point to a slight reduction in the usual number of undergraduates.

Auburn.—Two Greeks were killed and another badly injured at the icing and pre-cooling plant of the Pacific Fruit Express at Roseville. A heavy pipe was being put in place when it fell, striking the Greeks.

Alameda.—J. H. Schumacher, a former Alamedan, who died a few days ago in Oakland, was the first in a family of ten children to die. His parents, Mr. and Mrs. Ludwig Schumacher, who came to California in 1854, are still living in San Francisco. The other nine children are living in different parts of California.

San Francisco. — Judge Murasky held that saloon keepers whose stocks of liquors were destroyed by United States soldiers during and immediately after the fire of April 18, 19 and 20, 1906, have no claim for damages against the city and county. The decision practically throws out of court 100 suits filed by saloon keepers.

San Francisco. — A warning has been issued informing the people of the danger of eating or handling the ground squirrels in the adjacent counties. There is an ordinance that prohibits the importation of these animals into the city dead or alive. The squirrels have been found to be infected with disease and are not only unfit for food but dangerous to handle.

Redding.—James R. Holt, a well known contractor of northern California, has been cured of a long standing attack of rheumatism by the stings of 39 bees. Bees were teased until they were real angry and applied to the stiffened joints. Holt became sick under the torture, and it was feared for a time that his vomiting would have serious results, but he suffered no stiffness and now feels like a colt.

Vallejo.—Just entering the Vallejo high school, Miss Euphenia Blackwood has been awarded a gold medal by the board of education of Vallejo because of her attendance record made during her school life. She has not been absent or tardy since starting to school in the lowest class in the local schools. She graduated from the grammar school last spring with a remarkable record and is now enrolled in the receiving class of the high school.

San Jose.—That the coming Admission Day celebration will be the largest ever held in the Garden City is now an assured fact. Every day the project meets with greater approval and support. The civic pride of all citizens of the Garden City is thoroughly aroused to the necessity of boosting the efforts of the local celebration committee. Native Sons and Daughters from all parts of California are taking an active interest in the event.

Marysville.—Marysville is to have a big automobile factory. Representatives of one of the biggest factories in the East engaged in making machines have written to G. W. Harney of this city asking if proper sites can be obtained, and he has interested himself to the extent that a location for the factory will be secured. The plans for the big factory include a $75,000 investment and a plant that will give employment to over a hundred skilled mechanics.

Victoria, B. C.—Paul Bell, an engineer of the Honolulu Iron Works, returned on the Tango Maru last week from Formosa, where he has been engaged in establishing sugar mills for the Japanese Sugar Company, and states that Formosa will by next year be the greatest sugar producing country in the world. Five new mills were erected this year, and five more are to be built next summer, all equipped with the latest machinery. The output this year was 90,000 tons, all of which went to Japan.

Jurist Says Boys Who Play Marbles Will Go to Jail

Washington.—"Boys who play marbles for keeps" are gamblers and liable to punishment for violation of the law, according to Judge Kimball.

Three small boys were brought before the magistrate charged with participation in a game of chance. "The playing of marbles for keeps is a violation of the law," he said, gravely, "and as long as I am on the bench I propose to break it up." The youngsters were given a severe lecture and sentence suspended during good behavior.

PRESIDENT TAFT COMMENDS MOVEMENT FOR GOOD ROADS

Says Better Highways Will Lighten Burdens of the Farmer's Life.

Washington.—President Taft has again indicated his interest in good roads, the latest expression being elicited in connection with a movement for better highways in Virginia, this taking shape in an immediate plan for a road from Washington to Richmond. In a letter on the subject, the President says:

"I regard this as part of the general good roads movement in the country, and I have pleasure in saying that there is no movement that I know of that will have a more direct effect to alleviate the difficulties and burdens of the farmer's life, will stimulate the traffic and add to the general happiness of the people more than the establishment of good roads throughout the country."

To Study Farming Methods.

Marysville.—A representative of the Zionist movement in the Holy Land, A. Aaronsohn of Palestine, has arrived at Chico. The object of his visit is to study the conditions and soil and make a comprehensive report of the methods of farming and horticulture in this section, with the object of putting it before the Palestine authorities who plan to adopt the same methods in the Holy Land.

Aaronsohn will examine every section of the valley and will be here for three or four weeks. He has visited states in the East, but declares that the methods adopted in Sacramento valley are more satisfactory than in any place he has visited.

Chinese Leper Deported.

San Francisco.—Hock Hing, a Chinese immigrant who was found to have leprosy after he arrived on the Mongolia, was deported on the steamship Korea. For several days the Chinese papers have contained accounts of him and have expressed fears that he would spread the disease among those who were also being held in the detention sheds of the Pacific Mail dock, but the immigrant authorities had isolated the man as soon as he became sick.

Emulates Her Caucasion Sister.

Sacramento.—Like white women, who rush into court when their husbands beat them, Mrs. Haru Sato is asking that the legal bonds between herself and Sueji Sato, a Japanese vegetable man at Third and Y streets, be severed. The divorce complaint states that Sato was brutal to his wife. It charges him with beating her and applying vile words which would sound wicked in the Japanese tongue only.

Fire Losses Show Decline.

Sacramento.—The annual report of State Insurance Commissioner E. Myron Wolf has been filed with the Governor. A decrease in fire insurance premiums paid during the last two years is noted, due to the better class of buildings erected and in part to hard times. The premiums paid the last two years total $31,517,510 and the losses $11,668,283.

To Inspect Panama Canal.

Washington.—Representative Tawney, chairman of the House Committee on Appropriations, last week told the President that his committee would sail for the Isthmus of Panama November 7th. The committee will spend two weeks on the Isthmus going over every detail of the work.

Oil to Replace Coal.

Salt Lake.—The trial of an oil burning locomotive on the Southern Pacific division between Sparks and Carlin, Nev., has proved so satisfactory that the company has decided to retire all the coal burning engines on that division.

New Tariff Will Benefit Lemon, Hop and Wine Producers

Washington.—After signing the Payne tariff bill President Taft issued a statement embodying his views of the measure, from which the following excerpts are taken:

"I have signed the Payne tariff bill because I believe it to be the result of sincere effort on the part of the Republican party to make a downward revision, and to comply with the promises of the platform as they have been generally understood and as I have interpreted them in the campaign.

"This is not a perfect tariff bill, nor a complete compliance with the promises made, strictly interpreted, but the fulfillment free from criticism in respect to a subject matter involving many schedules and thousands of articles could not be expected.

"This is not a free trade bill. It is not intended to be. The Republican party did not promise to make a free trade bill.

"The corporation tax is a just and equitable measure, which it is hoped will produce a sufficient sum to prevent a deficit, and which, incidentally, will secure valuable statistics and information concerning the many corporations of the country."

San Francisco.—The way California will be effected by the new tariff bill may be summarized as follows:

Wines, lemons and hops will benefit greatly because of the increased protection.

Lumber will be no cheaper, in spite of the reduced duty.

Oil will not be handicapped by the free petroleum clause. California wells will be able to supply local demand.

Coal will sell at $10 a ton; the importer will pocket the 22 cents per ton reduction in the tariff.

Clothes and dry goods will be no cheaper and no dearer.

Shoes will not be cheaper, in spite of free hides.

Drugs will not be cheaper. Perfumery will cost more.

Hardware not affected; fine imported cutlery will be more expensive.

Labor is not menaced by wage reductions or encouraged by prospects of an advance.

Here is a list of the commodities most important to San Francisco which are affected by the new tariff, with increased rates in each case:

Champagne, $6 to $9.60 per case.

Brandies and spirituous liquors, $1.75 to $2.60 per gallon.

Still wines, 35 cents to 45-60 cents per gallon.

Still wines, $1.25 to $1.85 per case.

Hosiery, 50-70 cents to 70-90 cents per dozen.

Feeding of Hens Made Subject of Expert Investigation

Berkeley.—To make the barnyard hen do a greater day's work, Prof. Meyer E. Jaffa, head of the pure food laboratory of the state and professor of nutrition of the university, whose investigations in this subject have attracted wide-spread interest, has begun a series of experiments in scientific feeding of the bird.

All varieties of hens are being employed in the tests, which will extend over a long period, and all kinds of food will be given them. Their diet will be carefully selected and weighed and the cost of each egg will be carefully computed by the university scientist. At the end of the investigation he will prepare a table showing the amount and cost of the food given the hen and the number of eggs laid, with the cost of production of each egg.

Although this line of investigation is not entirely new with Professor Jaffa, he has never before carried it to a termination. His researches this year will be more complete than ever before and better adapted for industrial use.

Linseed, cottonseed, meats of various kinds and meals will be fed the chickens during the course of the experimentation work. Professor Jaffa is of the opinion that not enough care is taken of the feeding for the best results for egg producing. He believes that cheap food can be secured and still highly satisfactory results obtained.

His scheme will have the end in view of having the hen do a good day's work, one egg a day for seven days a week, and it was for this purpose that he took up his investigations several years ago.

Women Make Vain Search for Money in Bars of Soap

Oakland.—Sundry housewives about Oakland have for the last several days been dissolving, cutting up or testing with hat-pins bars of soap in a vain search for $20 pieces, but are just beginning to realize that they have been "stung." Recently a woman of engaging manner made a tour of Oakland's residence section, carrying a grip full of soap. Explaining that in every so many bars was buried a double eagle, in order to "introduce" the soap, the solicitor offered to "pick out the heavy bars," the coin of course inferentially being responsible for the added weight.

"Some ladies found coin in every bar of soap," confided the handsome solicitor, "and sometimes they give me part of the money. Of course you don't have to, but I will be around tomorrow to see what you have found."

The chance to make money was too good to be missed, and the fair solicitor was kept busy returning to her source of supply for more soap. So far, however, no coin has been found by any purchaser, nor has the woman returned for her "divvy." Adding to their loss, most of the purchasers have been deprived of the use of the soap through having taken the saleswoman's advice to "boil the coin out."

Farmers May Take Course in Agriculture at University

Berkeley.—A short course in agriculture and kindred subjects is announced for October 4 to November 24 by Prof. Leroy Anderson, superintendent of the university farm at Davis. The course, which proved a boon to the farmers of the State last year, will be practically the same this year except that long periods of instruction will be held during the day. This change was made to enable the farmer to study at the short courses and then return to his work as soon as possible. Night lectures also will be given to shorten the course by two weeks. A feature of the curriculum will be a week of discussion, called farmers' week, during which all the problems of the farm will be considered briefly and comprehensively. This period will attract a large number of farmers from all over the State who can only attend the sessions for seven days. Several associations will hold their conventions at the university farm during the week, among them being the University farm students' association, Farmers' institute workers, Sacramento Valley development association and the California live-stock association.

Farmers Call for Workmen to Handle Bounteous Crops

Chicago.—While thousands of "unemployed" are burdening the cities, indulging in much soap-box oratory and parading with banners to the effect, "Give us work and bread, not charity," the great Northwest, with a record-breaking crop, is loudly calling for help to save it. So urgent is the need that the secretaries of commercial and agricultural bodies in the Dakotas and elsewhere have appealed to the police departments of large cities to send men. South Dakota alone needs 8000 men at from $2 to $2.50 per day and board. The railroads are willing to transport genuine laborers free of charge to the wheat fields in order to save the crops. It is doubtful, however, if many of the unemployed will accept the offer.

Dusty Roads Cause an Epidemic of Infantile Paralysis

Winona, Minn.—Winona is fighting an epidemic of infantile paralysis, which attacks children between the ages of 6 months and 10 years, and where it does not kill leaves the victims helpless cripples. When efforts of the Board of Health failed to check the number of growing cases the State authorities were called in. They said the disease germ is carried in the dust from the streets into susceptible organs of the children. The thirty or more cases are scattered throughout the outlying districts which are not sprinkled.

JAPANESE IN HAWAII LOSE STRIKE FOR HIGHER WAGES

Planters Stand Firm in Declining to Yield to Demands of Workers.

Honolulu.—The strike of more than 6,000 Japanese plantation laborers, which has been in progress for more than two months and caused much loss to the planters in the islands, has been declared off by the higher wage association, the organization of the strikers. The attitude of the planters in refusing to make any concessions and rejecting all overtures for a compromise and the energetic action of the territorial authorities in prosecuting the leaders upon charges of conspiracy, for alleged threats of violence, and acts of intimidation, brought about a collapse of the strike. Finding that they were rapidly losing control of their discouraged followers, the strike leaders called a meeting of the higher wage association and by a formal vote declared the strike off. F. Makino, one of the leaders now on trial, stated that the Japanese laborers would try other methods to attain their object of $1 a day, for which they struck.

One Dollar Attorney's Fee.

Vallejo.—As his answer to the criticism of banks and corporations of Napa county, whose assessments he has caused to be raised, Theodore A. Bell, the attorney, has sent to the Napa county board of supervisors a receipted bill for $1 for his services. Bell was to have received from the county 25 per cent of the raises in taxes which he effected. By his campaign $500,000 has been added to the county rolls. The corporations forced by the lawyer to pay higher taxes used Bell's agreement with the county officials as an instrument with which to attack him. His action has stopped all hostile comment.

Americans Can Pay the Price.

Berlin.—The newly established diamond monopoly of the imperial government in southwest Africa has caused to be published the sale price of the first six importations of diamonds, which show an increase of from 22½ marks a karat, wholesale, to 29 marks. The statement is made that they sold at higher prices because the "sudden prosperity in America makes Americans willing to pay more."

Rice Growing at Biggs.

Biggs.—Rice Expert Chambliss of the United States Department of Agriculture, Washington, D. C., has come on to Biggs to resume his duties at the rice experiment gardens, of which he has charge. The experiments with rice here have been highly successful and the industry promises to become one of the most profitable of any yet tried in the Sacramento valley.

Was Widow of Brigham Young.

Salt Lake City.—One of the four surviving widows of the Mormon leader, Brigham Young, died here last week. She was Maanah Kjet Young. Her marriage to Young too place at Nauvoo, Ill., before the westward pilgrimage of the Mormons. She was 88 years old and died from debility incident to her age. No children were born to her.

"Black Hand" in Spokane.

Spokane, Wash.—Afraid to sign their names and evidently in fear for their lives, parties signing themselves "a group of Italian-Americans,' have sent a letter to Police Chief Sullivan, asking him to break up the Black Hand society in Spokane. The writers declare they are in constant fear of bodily harm.

Bungalow for Nordica.

New York.—George W. Young, the New York broker who recently married Mme. Nordica in London, is having built for her at Deal Beach, N. J., a $25,000 bungalow.

WORLD'S NEWS PRESENTED IN BRIEF ITEMS

Events of Both Hemispheres Compiled in Pithy Form For Busy Readers.

Here You Will Find a Resume of Happenings in Almost Every Part of the Earth.

Chicago.—George M. Shippey, Chief of Police of Chicago, tendered his resignation on the ground of ill health. He will be succeeded by Bernard J. Mullaney, a newspaperman.

Teheran.—It is understood that the government has now offered Mohammed Ali, the former shah, an annual pension of $75,000 on condition that he will deliver up the jewels enumerated in the nationalist inventory.

Washington. — First Lieutenant Ulysses S. Grant III, corps of engineers, grandson of President Grant, has reported at the War Department and formally assumed his new duties as Superintendent of the State, War and Navy building.

Bogota—Gonzales Valencia has been elected president of the Republic of Colombia by the National Congress to fill the unexpired term of General Rafael Reyes, resigned. This means that he will occupy the post of chief executive for about one year.

Lexington, Ky.—Judge Watts Parker in the Circuit Court last week declared the election for city officers, held in 1907, null and void on the ground of fraud and corrupt methods. The effect of the decision is to oust Mayor Skain and three other officials from office.

Chalonne Sur Marne, France.—M. Semmes, the aeronaut, using Henri Farman's biplane, made a flight of two hours and ten seconds. This lowers all French records except that of Wilbur Wright, the American, who last year flew two hours and nine minutes at London.

Paris.—For the first time in fifteen years a condemned murderer was last week publicly guillotined. He was a butcher, aged 23. In 1908 he stabbed his mother and this not resulting in her death, he finished her by strangulation. The motive for the crime was robbery.

New York.—Private cable advices received here state that E. H. Harriman's health is greatly improved and his condition is better than for several years. It was learned that, barring a change in his present plans. Harriman will reach here from his trip abroad about September 10.

New York.—Quan Yick Nam, the Chinese interpreter, who gave his services to the police in their efforts to solve the murder of Elsie Sigel, has informed the District Attorney's office that his life has been threatened by certain of his countrymen if he does not withdraw from the case.

Nome, Alaska.—The steamer Senator brought a large party of Shriners north to participate in the initiation of fifty local candidates. The delegation was met by a large number of local Masons and other prominent citizens. Each of the pilgrims was presented with a key made of a golden nugget, and a large key containing half a pound of gold was presented to the organization.

New York—The first American business man to acquire an aeroplane is Henry Siegel, who has made arrangements with the Wright brothers for the delivery of a machine within sixty oays. Mr. Siegel intends, if possible, to have the aeroplane flown from the roofs of his stores in New York, and also to exhibit it in flights from his stores in Boston and Chicago. The machine he has ordered will be built at once in the Wright factory at Dayton, Ohio, and if the engagements of the Wrights make it impossible for either of them to navigate it in person, they will specially train an aviator for the job.

Hartford, Conn.—Both houses of the Connecticut legislature passed a bill repealing the so-called "blue laws" relating to Sunday observance, which forbid almost every form of recreation and secular activity. The laws are relics of enactments by the law giving body of 1722. One of the laws specifically repealed is that which provides for a fine of $4 against each person who shall attend a concert or entertainment on the Lord's day. The new bill prohibits all sports and secular activities "except such as are demanded by necessity and mercy and such as are for the general welfare of the community." Under the words, "general welfare of the community," Sunday baseball will be permitted.

The New Flavor

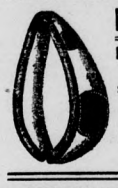

Mapleine

(Flavor of Maple)

A flavoring used the same as lemon or vanilla. By dissolving granulated sugar in water and adding Mapleine, a delicious syrup is made and a syrup better than maple. Mapleine is sold by grocers. If not send 35c for 2 oz. bottle and recipe book.

A MISUNDERSTANDING.

Young Bride Had Felt Neglected, Perhaps Without Reason.

Little Mrs. Briggs was almost in tears, and for a bride, that was a terrible condition. Yet as she sat in Mrs. Gilbert's dusky, candle-lighted library and poured out her grievances to a kindly listener, it was so hard to fight them back.

"And I know Miss Edgerly dislikes me very much," she went on. "At the faculty reception she would hardly speak to me, though I must say she talked enough to Mr. Briggs. And some of the women haven't called yet, and, O dear, you can't tell how horrid it is to be a stranger in a little, compact college town like this, where you all have your own settled interests and friends, and where a newcomer always feels that she's what the students call a 'Buttinsky' if she tries to do the least little thing. And I know a lot of them can't bear me!" she ended fervently, if illogically.

"But these are early days to judge, dear child," put in Mrs. Gilbert, mildly. "And remember that I knew and felt, too, the same little petty stings that are hurting you now. I was a bride then myself, in a new community, a strange environment. That's why I don't tell you that you are foolish—I know, you see—but that's just why I want you to learn from my experience. Few of us ever rise to immediate and universal popularity. Besides, people can't dislike you. You yourself have just said that they don't even know you yet!"

"Well, anyway," little Mrs. Briggs flashed back, "Carol Edgerly's having a tea, for all the new people, too, and she hasn't asked us, and I think——"

She was interrupted by the front door-bell ringing loudly; then, in genial, informal Hillsover fashion, the library door was pushed open, and a brisk voice called out cheerfully:

"I can't see, but isn't Mrs. Briggs here? No, I won't sit down, thank you, Mrs. Gilbert. I'm not calling on you. I just ran in to ask you, Mrs. Briggs, if you wouldn't help me at the tea I'm giving Saturday? I want you to pour the chocolate, and I want to tell you, too, that I've tried and tried to get you on the telephone, and called ceaselessly, but you're never at home, O popular little lady of many engagements! Will you help me? That's so good of you, and now I must fly. I've a thousand things to do in the next few days!"

She whisked out of the room as impetuously as she had whirled in; then, when the door had closed, Mrs. Gilbert turned with a whimsical smile to Mrs. Briggs.

"You see?" she asked.

Little Mrs. Briggs sighed with happy relief. "I do," she said. "Only I don't deserve to pour chocolate at her house. I ought to eat humble pie there instead."—Youth's Companion.

Highest grade goods for both sexes at TAFT & PENNOYER Oakland, Cal.
Mail orders promptly and carefully filled. Satisfaction or money back guarantee with every order. Thirty-three departments.

Scientific efforts to combat the South African "sleeping sickness" already have cost the lives of seven European physicians.

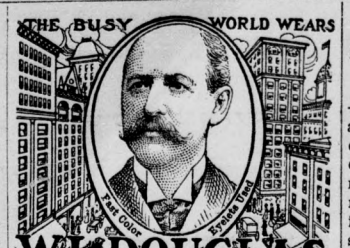

SEND FOR OUR NEW CATALOGUE
We are outfitters for male folks, and carry the most complete stock on the Coast to clothe you, from boyhood to manhood. C. J. HEESEMAN, 1107 Washington Street, Oakland, Cal.

According to a professor of the French Academy of Science, all the elements of food needed by man are contained in Gruyere cheese.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Fossil remains of a mammoth, including a tusk of prodigious size, have been unearthed in a railroad cutting near Malines, Belgium.

Several of the smaller Michigan cities are experimenting by hanging arches of tungsten lamps across the highways from the eaves of buildings.

LEARN WIRELESS
A dignified and pleasant profession. Thousands of positions opening. Uncle Sam pays $3000 a year for operators. Associated Wireless Institutes, 320 Market Street, San Francisco.

Lightning Conductors on Ships.

In spite of the popular impression to the contrary ships remote from the land are seldom damaged by lightning, although some of the most awe-inspiring displays of atmospheric electricity are frequently witnessed by those on board them.

Standing rigging and even parts of the running gear are now made of steel wire, and this substitute for the old-fashioned hemp serves the purpose of lightning conductor when the ship is not fitted with such an aid to safety. The electric current is conveyed down the wire rigging and reaches the sea through the vessel's metal hull. Damage occurs only if the current be interrupted on its way to earth. In a comparatively large proportion of instances the foreroyal truck is struck by lightning, that of the main less frequently and the mizzen least of the three.

Very serious casualties under this head occurred to warships and merchant vessels in the days of wooden hulls and hempen rigging. Many vessels are now fitted with lightning conductors of approved types, lest the wire rigging should fail to carry off the electric current.

For Example.

"Woman may be uncertain and coy," remarked the boarding house philosopher, "but she isn't hard to please. That's where the poet is wrong."

"What new light have you had on that subject, Mr. McGinnis?" asked the landlady.

"She'll put up with almost any kind of stick for a husband and wear any old thing on her head for a hat."

Those Withering Glances.

"I generally read the paper on the way to and from the office," said the importantly busy young man.

"I used to myself," said the old-timer, "before I got hardened to the looks of the girl straphangers."—Kansas City Times.

COMEDY OF FRENCH STREETS.

Diversion Ever to Be Found on the Boulevards of the Capital.

For the streets of Paris are a stage—set sometimes to a melodrama, or to a pageant such as Nodier's fantasy, or ours, has figured; more often to a comedy wherein the unities are outraged and the mob amused, says Warren Barton Blake in Scribner's. As in some Elizabethan piece, we who sit to it may be spectators and players too; it is from our cafe table on the pavement—if we stay not too long—that the piece is best followed and is best enjoyed. In London, where the play is more spectacular, with less of human interest and more emphasis upon the "properties," we prefer to take a 'bus-top seat. Here we may face the 'bus stand, if we like; the 'bus stand, where they are watering their cattle and calling the numbers for another circuit. A handful of copper buys us all this: with our bock thrown in. And if the play which Paris improvises for us fail to amuse, there is the beer at least; and the cafe newspaper, and the stationery to write a letter home on—if not this article. All these small perquisites come with our fauteuil d'orchestre in the open-air theater of the boulevard. The dialogue was better at Furetiere's cabaret or in Voltaire's time; but the music of the comedy—the orchestra wears tight red coats—is well enough today; so, too, the action. Even in the quarters of the poor—Paris is not all holiday nor all boulevard des Italiens—the street sends up accompaniment to the piece that is always playing: the comedie humaine. The glazier calls his Ho—! vitrier, ho! the vegetable women cry their potatoes and watercresses; the fish wife plaintively comments, Ah, qu'il est donc bon, le maquereau! There is ever a diversion on some penny whistle.

A CURE FOR FITS

The Treatment Is to Accomplish What Science Has Been Struggling to Attain for Centuries

The intense interest that has been manifested throughout the country by the wonderful cures that are being accomplished daily by epilepticide, still continues. It is really surprising the vast number of people who have already been cured of fits and nervousness. In order that everybody may have a chance to test the medicine, large trial bottles, valuable literature, History of Epilepsy and testimonials, will be sent by mail absolutely free to all who write to the Dr. May Laboratory, 548 Pearl Street, New York City.

That many cases of color blindness may be cured, or at least rendered less serious by practicing color combinations is asserted by an Eastern oculist of note.

Rich, mellow, perfectly aged in wood and very delicately flavored: Old Gilt Edge Whiskey, rye or bourbon.

"Burglar proof" plate glass made by a firm at Rheims, France, is said to have withstood blows from a steel-shod mallet and revolver shots, in tests, without breaking.

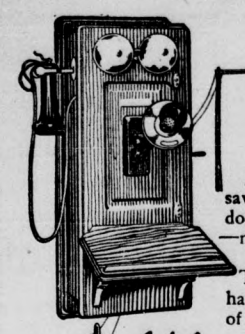

You will find just what you want if you read the advertisements in this paper.

HAMLINS WIZARD OIL THE OIL THAT PENETRATES GREAT FOR PAIN

High Art.

"Are you blind, prisoner?" inquired the magistrate.

"Yes, your worship."

"You are charged with vagrancy. How did you lose your sight?'

"By a fit of appleplexy, sir."

"But there is a picture on your breast representing an explosion in a mine, through which, it is stated, you became blind. How is this?"

"Please, your worship, I couldn't afford to pay a hartist as could paint appleplexy."—London Answers.

WHAT IS VALPAUX?
It is the name of a special treatment for genito-urinary diseases which is guaranteed to cure or money refunded. For particulars write the World Drug Company, San Francisco.

Always Waiting.

"Dear," said the melancholy wife, "if you die first you will wait for me there on that far shore, won't you?"

"I guess so," replied her husband, wearily. "I've always had to wait for you everywhere I go."—Philadelphia Ledger.

Disappointing.

The Bachelor—Here's a magazine poet who likens "hope" to "a fair woman."

The Benedict—Huh! No wonder; it is so disappointing.

Constipation

"For over nine years I suffered with chronic constipation and during this time I had to take an injection of warm water once every 24 hours before I could have an action on my bowels. Happily I tried Cascarets, and today I am a well man. During the nine years before I used Cascarets I suffered untold misery with internal piles. Thanks to you, I am free from all that this morning. You can use this in behalf of suffering humanity. B. F. Fisher, Roanoke, Ill.

FIFTEENTH YEAR, — No. 5

The Tarriff—oh shucks, let's not talk about it.

Mrs. Alice Longworth is going up in a ballon. It is queer how women do aspire for the higher things in life.

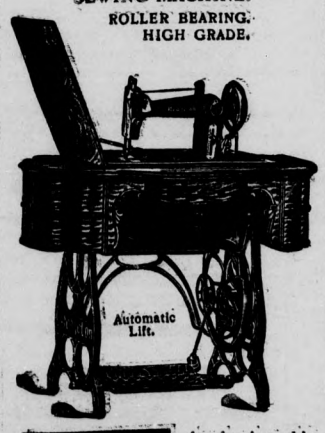

Prunes are ripe. Now there will be a lot of people getting down on their knees for the first time since last prune season.

We sent out some letters to prospective "Press" subscribers last week. Have you been courteous enough to answer yours?

Campbell needs some real live literature with good reading matter and fine illustrations, to send to prospective settlers. Every city but ours has something on this order. This is a suggestion for our Improvement Club.

Campbell has a fine High School, Grammar School, Fire District, Piped Water System, miles of sidewalks, fine roads, has them watered twice a day, and has a very low rate of taxation. We have not incorporated yet either. That goes a long way to show the prosperity of our community.

THE BUSH LIMA.

There is hardly a vegetable which grows in the garden that produces a finer delicacy for the table than the bush lima bean. Yet, developed as it is from a tropical or semitropical ancestor, it requires a great deal of warm weather to bring it to maturity. For this reason it should be planted in the warmest place in the garden, preferably on a southern slope or just to the south of hedge, tight fence or building. The soil should be rich and mellow and in planting the seed should be put in the soil to the depth of an inch one at a time, eye down, so that the seed will not have to twist or turn itself in the process of sprouting and breaking through the soil, a process in which the cotyledons are often broken off and the little plant destroyed because deprived of the nourishment which they furnish to it in the first days. Frequent hoeings to keep the soil mellow and moist will hasten the development of the beans and thus in effect lengthen the season of growth.

TANGLEFOOT BANDS.

Orchardists in several states, more particularly the extensive fruit growing districts of the west, are securing very satisfactory results with "tanglefoot bands," applications made on the trunks of the trees a short distance below the limbs of the same resinous material which is used on the sticky fly paper, the familiar kind an unwary man will now and then sit down upon in a drug store window. Several coats of the composition are applied, the mixture even during wet seasons being effective traps for a period of three months. The band not only traps the worms which hatch in the tree and descend the trunk in search of nesting places, but it catches a majority of those which emerge from apples on the ground and seek food or nesting places in the tree.

TO THE PEOPLE OF CAMPBELL AND SURROUNDING COUNTRY

Permit me to call your attention to my trade as a shoemaker. I have learned the trade and know my business. I guarantee satisfactory work. I will use the very best material and will charge regular prices for my work. You don't need to go to San Jose to have your fine shoes sspaired. Help to build up your home town by patronizing home trade. That is what I myself expect to do. I am here to stay. Try me.

C. J. CHRISTIANSON
CAMPBELL'S SHOEMAKER

YOU CAN ENJOY

A good meal—good things to eat after you have lost teeth replaced. Delaying loses more teeth and is more expensive when you are ready for the attention they should have now.

If you have only a few real teeth left, then it is all the more reason that you should act at once.

One reason you should try our services—new patients are glad to send others.
